Seminars in Clinical Neuroscience
Karolinska University Hospital Huddinge
Autumn, 2015

Organizer: Division of Translational Alzheimer Neurobiology
Department of Neurobiology, Care, Science and Society
Center for Alzheimer Research

Place: Seminar room, Geriatric Lab, Novum 4th floor
Visitors: via Novum 5th floor, entrance door next to elevator G
Time 3-4 pm

Organized by: Azadeh Karami, PhD student
& Taher Darreh-Shori, Associate professor

9th September:
Time: 15:00
“Molecular Anatomy of the Brain by Single-cell RNA-seq”
Sten Linnarsson, Professor PhD
Department of Medical Biochemistry and Biophysics (MBB), Karolinska Institute

7th October:
Time: 15:00
“New neurons in old brains”
Jonas Frisén, Professor MD PhD
Department of Cell and Molecular Biology (CMB), Karolinska Institutet

4th November
Time: 15:00
“How does physical exercise protects against depression”
Maria Lindskog, Associate Professor PhD
Department of Neurobiology, Care Sciences and Society (NVS), Karolinska Institutet

2nd December:
Time: 15:00
“Molecular imaging of neuroinflammation in degenerative CNS disorders”
Andrea Varrone, Associate Professor PhD
Department of Clinical Neuroscience (CNS), Karolinska Institutet
