Were there any parts of the course that were excellent? If so, please specify which parts and in what way.

Reviewing lectures through quizzes were really helpful in putting the information into context and also for preparing for the exam

The whole course was excellent. The teacher is very motivated and puts a lot of efforts in preparing the lectures and workshops so that each student gets as much as possible out of this course.

The workshop about the anatomy of the microscope and Sylvie's lectures.

the workshops and the discussions are impressive and easy to understand.

17. Do you have any recommendations as to how the course could be improved? If so, please specify which parts and how.

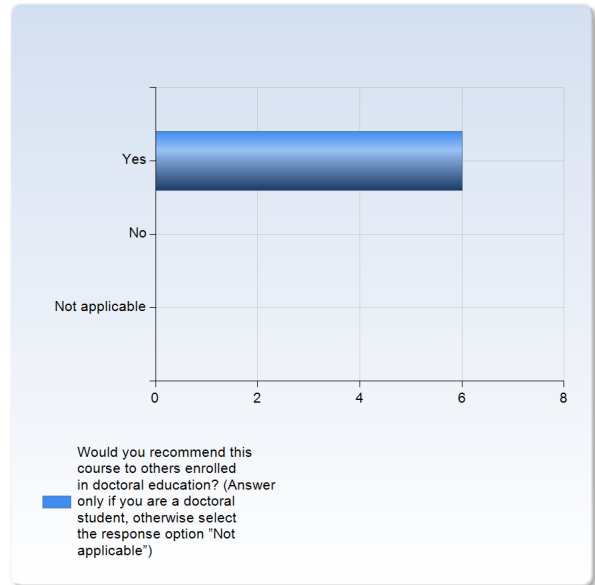

Do you have any recommendations as to how the course could be improved? If so, please specify which parts and how.

Please consider introducing image analysis earlier in the course, and maybe a short introduction to the most commonly used FIJI functions.

Also, kahoot could be used for quizzes for a more interactive (and faster) setup compared to canvas if applicable.
