

# Zebrafish husbandry course 2025

Karolinska Institutet, Stockholm, Sweden

The zebrafish core facility at Karolinska Institutet, in collaboration with Nord University, would like to invite you to the annual hands-on zebrafish husbandry course at Karolinska Institutet in Stockholm.

**The course will be held during week 46 in Stockholm.**

The aim of the course is to teach evidence-based methods and practical skills for housing and care of zebrafish. Topics will include:

- Biosafety
- Culture of rotifers, including polyculture
- Rearing and keeping zebrafish
- Animal welfare
- Aquatic techniques, including CLS and stand-alone systems as well as feeding robots
- Surgical procedures, including fin-clipping, gavage feeding, blood sampling, injections and tattooing
- Cryopreservation and IVF of zebrafish

The detailed program for the course will be published in due course.

The number of course participants is limited to 12. The course fee is 4500 SEK excl. VAT and covers all materials, coffee breaks, lunch and one dinner. CPD points will be awarded for the course.

The registration will open during August.

If you have any questions, please do not hesitate to mail to [zebrafish-office@km.ki.se](mailto:zebrafish-office@km.ki.se).
