

2015

29. Åsa Hallqvist Everhov

Hormonal consequences, replacement therapy, and lost workdays after cervical cancer treatment

December 11, 2015

[Abstract and thesis](#)

28. Lidi Xu

The p53-induced Wig-1 protein: identification of mRNA targets and role as a survival factor in development and cancer

December 2, 2015

[Abstract and thesis](#)

27. Hildur Helgadóttir

Cancer risks and prognosis in familial melanoma kindreds

November 27, 2015

[Abstract and thesis](#)

26. Emma Watz

Graft viability and transfusion related complications in patients undergoing stem cell transplantation

November 27, 2015

[Abstract and thesis](#)

25. Emilia Andersson

The role of HLA-A*02 and biomarkers in solid malignant tumours

November 13, 2015

[Abstract and thesis](#)

24. Anna Kwiecinska

Characterisation of molecular alterations in diffuse large B-cell lymphoma with respect to transformation, progression and prognostic markers

November 13, 2015

[Abstract and thesis](#)

23. Brita Zilg

Postmortem analyses of vitreous fluid

November 6, 2015

[Abstract and thesis](#)

22. Michael Mints

Methodological approaches towards personalised cancer medicine

October 23, 2015

[Abstract and thesis](#)

21. Katarzyna Zielinska-Chomej

Analysis and characterization of chemo- and radiation therapy sensitizing strategies in tumours with focus on effects of phenothiazines on DNA damage response signalling

October 16, 2015

[Abstract and thesis](#)

20. Na Wang

Telomerase activation and its clinical implications in human thyroid tumors

October 15, 2015

[Abstract and thesis](#)

19. Zhuochun Peng

Identification, validation and clinical application of a three-gene signature for accurate prognosis prediction and treatment selection of newly diagnosed prostate cancer

October 14, 2015

[Abstract and thesis](#)

18. Helene Lindquist

Self performed treatment in female cancer survivors with secondary lymphedema

October 1, 2015

[Abstract and thesis](#)

17. Ran Ma

Molecular and therapeutic aspects of breast cancer stem cells

September 4, 2015

[Abstract and thesis](#)

16. Maarten Ligtenberg

Strengthening the pillars of cancer immunotherapy

August 28, 2015

[Abstract and thesis](#)

15. Yumeng Mao

To kill two birds with one stone: targeting myeloid cells in cancers

June 12, 2015

[Abstract and thesis](#)

14. Gustaf Rosin

Evaluation of protein and biological biomarkers in breast cancer

June 12, 2015

[Abstract and thesis](#)

13. Mahmut Deniz Özata

Genomic and functional analysis of microRNAs and PIWI-interacting RNAs in human cancers

June 12, 2015

[Abstract and thesis](#)

12. Karl Holmberg Olausson

Molecular subclassification, stem cell markers and growth regulatory pathways in gliomas

June 1, 2015

[Abstract and thesis](#)

11. Karin Lindberg

Stereotactic body radiation therapy of primary lung cancer metastases

May 29, 2015

[Abstract and thesis](#)

10. Xiaonan Zhang

Development of therapeutic strategies for quiescent tumor cell populations

May 22, 2015

[Abstract and thesis](#)

9. Salam Khan

Targeting chronic lymphocytic leukemia cells using anti-ROR1 monoclonal antibodies and small molecule inhibitors

May 21, 2015

[Abstract and thesis](#)

8. Jens Füllgrabe

The return of the nucleus - Epigenetic regulation of autophagy

April 29, 2015

[Abstract and thesis](#)

7. Rainer Tuominen

Genetic and epigenetic alterations in melanoma

April 24, 2015

[Abstract and thesis](#)

6. Cecilia Nordfors

Studies of human papillomavirus and molecular markers in head and neck cancer

April 24, 2015

[Abstract and thesis](#)

5. Sylvia Packham

From membrane to nucleus: New roles and functions of SUMOylated IGF-1R and EGFR

April 17, 2015

[Abstract and thesis](#)

4. Tekla Lind

Effect of ovarian surgery on ovarian reserve and fertility

March 27, 2015

[Abstract and thesis](#)

3. Michael Gubanski

Aspects of chemotherapy and photon and proton radiotherapy in patients with gastric cancer

March 6, 2015

[Abstract and thesis](#)

2. Sara Hultin

To unite or disconnect: AmotL2 in tubulogenesis and tumor invasion

February 6, 2015

[Abstract and thesis](#)

1. Pinar Akcakaya

Molecular mechanisms of imatinib resistance in gastrointestinal stromal tumor with focus on microRNAs

January 9, 2015

[Abstract and thesis](#)

2014

22. Tong Liu

Characterization of mitochondrial membrane proteins as novel components in mitochondrial dynamics

December 8, 2014

[Abstract and thesis](#)

21. My Björklund

Molecular signatures of progression and chemoresistance in epithelial ovarian carcinoma

November 28, 2014

[Abstract and thesis](#)

20. Mattias Jangard

Malignant melanoma and other malignancies of the nasal cavity and the paranasal sinuses in Sweden

November 28, 2014

[Abstract and thesis](#)

19. Sandra Eketorp Sylvan

Targeted therapy and outcome in chronic lymphocytic leukemia

November 28, 2014

[Abstract and thesis](#)

18. Cinzia Bersani

The role of the RNA-binding protein Wig-1 in post-transcriptional regulation of gene expression

November 14, 2014

[Abstract and thesis](#)

17. Salah Eldin Gadalla

Studies of stem cell and adhesion proteins in breast cancer

October 28, 2014

[Abstract and thesis](#)

16. Dudi Warsito

The secret life of nuclear IGF-1R: functions beyond traditional signaling pathways

October 24, 2014

[Abstract and thesis](#)
