

**Karolinska
Institutet**

Karolinska Institutet Prize for Research in Medical Education 2024

Guidelines for nomination

Nominations are accepted from anyone interested in the field of research in medical education. Nomination can be submitted by e-mail to Anna Kiessling (Anna.Kiessling@ki.se) at any time. To be considered for the prize in 2024, your nomination must have reached the Karolinska Institutet Prize Committee **no later than 10th of September 2023**. Nominations received will be confirmed by e-mail to the nominator.

Note 1: We will only consider new nominations or updated nominations from previous period. This implies that that we will not consider older, not updated nominations.

Note 2: We will not accept joint nominations. Each nominated person will be assessed individually. However, the Prize can be shared between two individually nominated persons.

General Information about the Prize

The purpose of the Karolinska Institutet Prize for Research in Medical Education is to recognize and stimulate high-quality research in medical education, thereby promoting long-term improvements in educational practices. 'Medical' includes all education and training within any health science profession. Nominees shall have made outstanding, and internationally recognized, contributions to research in medical education. Your nomination(s) may be based on not only studies made in a health science setting, but also on other research relevant to medical education. The nominee's findings must have been published in internationally and generally available journals or books. All key publications must be available in English. Nomination

Practical information

- Write your nomination as a text document.
- Save it in one of the following formats: Word or PDF.
- Send it by e-mail to: anna.kiessling@ki.se
- If you are nominating several nominees: Send a separate nomination form for each nominee.

Nominator

State your name, title, and professional position, address, e-mail, and telephone number. The Prize Committee may contact you for further information.

Nominee

- State the nominee's name, title, and professional position, address, e-mail, and telephone number.
- Briefly (a few sentences, up to one printed page) justify your nomination.

Relevant, but optional, information including:

- The nominee's most important research findings.
- The relevance of the findings, either for medical education in general or for a specific education within the health sciences.
- Impact of the nominee's research results on educational practice, or on studies by other researchers.
- References for up to ten key publications within the field of medical education with the nominee as a principal investigator. The publications must be in English and accessible in internationally and generally available journals or books.

General

- Swedish regulations stipulate that nominations are public, but please use the information restrictively.

If further information is needed, please contact

Professor Anna Kiessling

Scientific Secretary of the Karolinska Institutet Prize Committee
