

Consent to the processing of personal data in photo and film

Purpose

Cancer Research KI will require to use/store the photos/digital creation of you to disseminate information about research conducted within KI by a KI-based researcher/student. You must therefore read through this document and sign a consent form. The photos/digital creation may be used in both printed and digital form, in various channels where KI and Cancer Research KI disseminates information about its activities.

Lawful basis: Consent from the data subject

KI is a public authority and is thereby obliged to comply with, among other things, the rules on public documents, public authority archives and public statistics. KI will therefore also process personal data in the manner required to comply with other applicable legislation. Since KI is a public authority your personal data and other information about you can become subject of a request from the public in accordance with the Public Access and Secrecy Act, before an extradition KI will perform a secrecy examination.

I consent to Karolinska Institutet, and thereby Cancer Research KI, to use my personal data for editorial and marketing purposes. Karolinska Institutet is not obliged to notify me of when such use or publication may occur. No compensation is payable for the occasion of acquisition, nor for future use of the image/film.

The consent relates to the following personal data:
