INDUSTRY

[Seven pharma CEOs announce new joint action to accelerate net zero healthcare \(astrazeneca.com\)](https://astrazeneca.com) CEOs from AstraZeneca, GSK, Merck KGaA, Novo Nordisk, Roche, Samsung Biologics and Sanofi announced a joint action to achieve near-term emissions reduction targets and accelerate the delivery of net zero health systems. For the first time, the global health sector has come together to reduce greenhouse gas emissions through the Sustainable Markets Initiative (SMI) Health Systems Task Force, a public-private partnership launched at COP26.

CLIMATE CHANGE AND HEALTH

[The NIH Climate Change and Health Initiative and Strategic Framework: addressing the threat of climate change to health - The Lancet](#)

The leadership of the US National Institutes of Health (NIH) recognizes the urgent need for a more concerted and collective effort by the agency to advance understanding of the effects of climate change on individual and public health.

Our motto: We can make a difference!

I'll be back!
