What are the main issues/tensions regarding language in your particular context?

Official documents	Regulation that BA programs have to be in German but we want to have international partners	Stakeholder engagement	We only use English however we have a large cohort of Chinese students who will like Mandarin to be used.
People do not have enough language skills, thus avoiding each other	Implementation of the language policy that enhances multilingualism	Loss of language domains. Multilingualism.	Multilinguism in the country

What are the main issues/tensions regarding language in your particular context?

Include everyone in our meetings like Eskimo said

People not "working in internationalisation" think just Dutch is fine, they don't experience a "problem"

finding partners that offer english taught programs outside the US and UK for our students to go abroad

Don't understand the language

Raising internal awareness of the importance of English.

Engaging all the stakeholders

Be inclusive with international staff And academics

Coffee talks

What are the main issues/tensions regarding language in your particular context?

English vs Mandarin

our main issue is finding english taught programs in universities outside the US and UK for our students to go on a mobility and expnd our network of study abroad opportunities.

When to speak, write in English, when Dutch
