

Guidelines regarding approximate costs for LIME research groups' with doctoral students having employment outside the department

We have listed different types of costs that research groups might want to reimburse from the employer of doctoral students (industrial PhD students) having employment outside the department. Simply consider those as a reference. The standard contract template from KI foresees two possibilities.

- a) KI stands for all costs,
- b) KI will be reimbursed by the employer for certain, specified costs.

The following costs can be added as fixed costs in the standard contract to be invoiced twice a year:

- IT & KIB cost: approx. 12 000 SEK/year
- Supervision: 2.5% of annual salary (main supervisor): approx. 30 000 SEK/year incl. INDI with a monthly salary of 50 000 SEK
- Workspace at LIME: add if applicable (approx. 5 500 SEK/sqm)

The costs for the items listed will be invoiced once they are received:

- Computer: add if applicable
- Open Access Fee (if applicable): approx. 15.000 SEK per paper
- Half-time review: approx. 5 000 SEK (travels for half-time review committee)
- Dissertation: approx. 50 000 SEK (fee for opponent: 15 000 + indi; print costs: 10 000 + indi (100 copies); travels opponent & examination board; plus, additional costs like lunch meeting following public defence, mingle, flowers, room for defence)
