

FREE xMOOC COURSE

TO TALK ABOUT HEALTH WITH OLDER PEOPLE

This is a course for you who meet older people with cognitive disabilities and want to get more understanding of and skills in good communication with older adults and their significant others regarding health and health information.

The course is provided digitally in a xMOOC-format (extended Massive Open Online Course). You will take part of lectures, films, articles, and quizzes and get the opportunity to reflect on examples and challenges around talking with older adults about health.

The course is based on evidence-based methods within healthcare and the teachers in the course have vast experience of working with older adults and/or health communication and health literacy.

Course provider

**Co-funded by
the European Union**

**Karolinska
Institutet**

Co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.
