Subject Identification Log

Study name: *Physical exercise during neoadjuvant chemotherapy for breast cancer as a means to increase pathological complete response rates: the randomized Neo-ACT trial*

Full name	Subject Identification (YYYYMMDD-nnnn)	Subject number (=Randomisation number)	Date when randomised (YYYYMMDD)	Randomisation Arm (A/B)

Page no _____ of _____

**Background:**

According to ICH-GCP chapter 8.3.21, a list of all patients enrolled in the study must be available. The list must contain information that enables complete identification of each participating patient, usually via social security number. The list must not be disclosed to unauthorized persons and must be kept by the examiner in charge in a safe place. **Instruktioner:**

Centre	Enter assigned center number or name/city
Full name	Enter the patient's full name
Subject identification	Ange personnummer (10 siffror) eller motsvarande vid utländskt medborgarskap.
Date when randomised	Enter social security number (10 digits) or equivalent.
Subject Number/ Randomisation Number	Enter randomization number
Randomisation Arm	Enter Arm Intervention or Arm Control
