Price list KI Biobank Sample services, 2026

Effective as of 2026-09-01

Service	Price
Start of new studie	
Consultation, logistic planning, agreements, referral design and IT integration *(standard: 25 hours per study)*	25 000 SEK
Additional time	1 000 SEK / h
Referrals	
Printing cost	6,72 SEK / referral
Referral design and modification of existing referrals	1 000 SEK / h
Sampling at KI Biobank	
All ordinary sampling tubes	291,20 SEK
Sample deposition in 96 format	
Includes registration, single centrifugation, aliquoting and freezing	
Aliquoting from primary tube to ≤ 8 x 225 µL in micro tubes	109,76 SEK /primary tube
Aliquoting from primary tube to ≤ 16 x 225 µL in micro tubes	148,96 SEK /primary tube
Sample deposition in cryo tubes	
Per primary tube	109,76 SEK
Per aliquot (500 µL or 700 µL)	13,44 SEK
Sample deposition with double centrifugation	
Per primary tube	148,96 SEK
Per aliquot if aliqouting to cryo tube or similar	13,44 SEK
Direct freezing of sample tubes	13,44 SEK / tube
DNA Extraction	
The price includes UV-measurement of concentration	
From 400 µL EDTA whole blood (including aliquoting to 2 back-up samples)	116,48 SEK
From 4 mL EDTA whole blood	342,72 SEK
From Oragene™ kit	231,84 SEK
From buccal swabs	226,24 SEK
Administration fee for external DNA extraction customers *Includes agreements, IT, instructions and validation*	5152 SEK
Cryopreservation of viable cells; PBMC	1 725 SEK / prep

Cell Free DNA Protocol	Price
Cell Free Plasma From STRECK or 10 mL EDTA	161,28 SEK / tube
Blood cells From STRECK or 10 mL EDTA	174,72 SEK / tube
Trombocyt free plasma From 10 mL EDTA	329,28 SEK / tube
Trombocyt suspension from blood From 10 mL EDTA	296,80 SEK / tube
DNA-extraction from blood cells From STRECK From 10 mL EDTA	231,84 SEK / tube 219,52 SEK / tube
Debris-free urine From 50 mL urine	315,84 SEK / tube
Isolated urine micro vesicles From 50 mL urine	631,68 SEK / tube
Cell suspension from urine From 50 mL urine	283,36 SEK / tube

Package prices

Platelet Free Plasma & Platelet Suspension From 10 mL EDTA	477,12 SEK / tube
Debris-Free Urine & Isolated Urine Microvesicles From 50 mL urine	644,00 SEK / tube
Debris-Free Urine, Isolated Urine Microvesicles & Platelet Suspension From 50 mL urine	927,36 SEK / tube

Service	Price
Storage	
Primary tubes, large; 6 – 10 mL (-80 °C)	5,15 SEK / tube / year
Primary tubes, small; 4 mL (-80 °C)	2,58 SEK / tube / year
Cryo tubes ≤ 1.8 mL (-80 °C)	1,34 SEK / tube / year
Cryo tubes ≤ 1.8 mL, liquid nitrogen (-180 °C)	15,68 SEK / tube / year
Micro tube, 0.9 mL (96-format; -20 or -80 °C)	0,67 SEK / tube / year
Micro tube, 225 µL (96-format; -20 or -80 °C)	0,39 SEK / tube / year
Filter paper (FP) (-80°C or room temperature)	5,15 SEK/ FP/year
Rack in liquid nitrogen tank	16 511 SEK/ rack /year
Withdrawal	
Planning of withdrawal order *Includes validation of data files and samples before and after withdrawal, customer communication, preparation of transport, MTA and other agreements*	1 000 SEK / h
Sample picking	13,44 SEK / sample
Reformatting of liquid samples between different tubes and plate formats	2 875 SEK / plate
Copies	588 SEK / plate
DNA Normalisation	
From DNA in REMP300-tubes or cryo tubes	13 674 SEK / plate
Other lab work on demand	1 000 SEK / h

The price list is for academic scientists affiliated to Swedish universities.

Corporate customers, please contact KI Biobank for a quotation.

The university overhead INDI (24 %) will be added to all prices.
