

## **MTC Book/Literature examination: Guideline**

Our PhD Students are required to have a detailed knowledge of not only their specific research projects but also possess a broader understanding of the relevant research areas.

To achieve this goal the student undergoes an oral examination by a senior scientist/professor appointed by the MTC Research Committee.

The examination should be completed **before** the half time control or the Licentiate examination. The exam is based on **one** of the following books for the different research areas:

### **A) Immunology and Infection Biology**

- 1) Murray et al., *Medical microbiology*, 6<sup>th</sup> Ed 2009
- 2) Engleberg et al., *Schaechter's Mechanisms of Microbial Disease*, 4<sup>th</sup> Ed 2007
- 3) Abbas & Lichtman, *Basic Immunology*, 2<sup>nd</sup> Ed 2006-7
- 4) Murphy, *Janeway's Immunology*, 8<sup>th</sup> Ed 2011

### **B) Cancer and Cell biology**

- 1) Weinberg, *The biology of Cancer*, 1<sup>st</sup> Ed 2006
- 2) Tannock & Hill, *The basic science of oncology*, 4<sup>th</sup> Ed 2004
- 3) Alberts et al., *Molecular Biology of the Cell*, 5<sup>th</sup> Ed 2007

For other research areas please consult your supervisor and the Director of studies for the relevant literature.

Upon completion of the examination please complete the Book/Literature examination form. The form should then be handed in to the Educational Administrator.

## MTC Book/Literature examination: Form

Name of student \_\_\_\_\_

Title of the book \_\_\_\_\_

Name of Main Supervisor \_\_\_\_\_

Name of examiner \_\_\_\_\_

Date for examination \_\_\_\_\_

This is to verify that the student has been examined on the basic knowledge of his/her subject according to the study plan.

Please tick one of the choices below:

Passed

Failed

### Signatures

\_\_\_\_\_  
Student

\_\_\_\_\_  
Main Supervisor

\_\_\_\_\_  
Examiner

\_\_\_\_\_  
Director of Postgraduate Studies

Send the form to the Educational administrator when it is signed by all parts.
