2020

Ajeganova S, Gustafsson T, Lindberg L, Hafström I, Frostegård J. Similar progression of carotid intima–media thickness in 7-year surveillance of patients with mild SLE and controls, but this progression is still promoted by dyslipidaemia, lower HDL levels, hypertension, history of lupus nephritis and a higher prednisolone usage in patients. Lupus Science & Medicine. 2020;7(1):e000362.
