Karolinska Institutet Prize for Research in Medical Education
2020

Guidelines for Nomination
Nominations are accepted from anyone interested in the field of research in medical education. A nomination can be submitted by e-mail to Anna.Kiessling@ki.se at any time. To be considered for the prize in 2020, your nomination(s) must have reached the Karolinska Institutet Prize Committee no later than 30 September 2019. Nominations received will be confirmed by e-mail to the nominator.

General Information
The purpose of the Karolinska Institutet Prize for Research in Medical Education is to recognize and stimulate high-quality research in medical education, thereby promoting long-term improvements in educational practices. ‘Medical’ includes all education and training within any health science profession. Nominees shall have made outstanding, and internationally recognized, contributions to research in medical education. Your nomination(s) may be based on not only studies made in a health science setting, but also on other research relevant to medical education. The nominee’s findings must have been published in internationally and generally available journals or books. All key publications must be available in English. The Prize can be shared. The Prize Committee encourages nominations of female and promising young researchers.

Nomination
Nomination form:
Write your nomination as a text document. Save it in one of the following formats: Word or PDF, and send it by e-mail to Anna.Kiessling@ki.se. Send a separate nomination form for each nominee in the case of more than one person being nominated to individually receive the Prize. Send one form in the case of more than one individual being nominated to jointly receive the Prize.

Nominator:
State your name, title, and professional position, address, e-mail, and telephone number. The Prize Committee may contact you for further information.

Nominee:
● State the nominee’s name, title, and professional position, address, e-mail, and telephone number.
● Briefly (a few sentences, up to one printed page) justify your nomination.

Relevant, but optional, information includes:
● The nominee’s most important research findings.

● The relevance of the findings, either for medical education in general or for a specific education within the health sciences.
● Impact of the nominee’s research results on educational practice, or on studies by other researchers.
● References for up to ten key publications within the field of medical education with the nominee as a principal investigator. The publications must be in English and accessible in internationally and generally available journals or books.
● Indicate your reasons for nominating two or three individuals to jointly receive the Prize (if applicable).

General:
● Swedish regulations stipulate that nominations are public, but please use the information restrictively.
● Your nomination will be considered as valid for future Prizes, unless you retract it by e-mail or ordinary mail.

Further information:
For further information, please contact the Scientific Secretary of the Karolinska Institutet Prize Committee, Associate Professor Anna Kiessling, e-mail: Anna.Kiessling@ki.se
