

Book Contributions

11. Römling, U., Pesen, D., Yaron, S. (2006) Biofilm formation of *Salmonella enterica*, *Salmonella: Molecular Biology and Pathogenesis*, M. Rhen (ed.), Horizon Press, in press.
10. Röming, U., Lünsdorf, H. (2003) Cellulose biosynthesis in Enterobacteriaceae (invited review for „Cellulose“, accepted)
9. Römling, U., Bokranz, W., Gerstel, U., Lünsdorf, H., Nimtz, M., Rabsch, W., Tschäpe, H., Zogaj, X. (2003) Dissection of the genetic pathway leading to multicellular behaviour in *Salmonella typhimurium* and other Enterobacteriaceae in *Medical implications of biofilms*, M. Wilson and Devine, D., (eds.), Cambridge University Press, Cambridge, England. p. 231-261.
8. Römling, U., Schmidt, K.D., Tümmeler, B. (1997) *Burkholderia* (*Pseudomonas*) *cepacia* Strain ATCC17616 and 25416; *Pseudomonas aeruginosa* Strain C and PAO (DSM1707) in *Bacterial Genomes: Physical structure and analysis*, de Bruijn, F.J., Lupski, J.R. and Weinstock, G., (eds.), Chapman & Hall, New York. p. 709-718.
7. Römling, U., Schmidt, K.D., Tümmeler, B. (1997) Two dimensional pulsed-field gel electrophoresis in *Bacterial Genomes: Physical structure and analysis*, de Bruijn, F.J., Lupski, J.R. and Weinstock, G., (eds.), Chapman & Hall, New York. p. 326-336.
6. Römling, U., Schmidt, K.D., Tümmeler, B. (1997) One dimensional pulsed-field gel electrophoresis in *Bacterial Genomes: Physical structure and analysis*, de Bruijn, F.J., Lupski, J.R. and Weinstock, G., (eds.), Chapman & Hall, New York. p. 312-325.
5. Bautsch, W., Römling, U., Schmidt, K.D., Samad, A., Schwartz, D.C., Tümmeler, B. (1997) Long-range restriction mapping of genomic DNA, in *Genome mapping A practical approach*, Rickwood, D. and Hames, B.D., (eds.), IRL Press, Oxford. p. 281-313
4. Römling, U., Fislage, R., Tümmeler, B. (1996) Mapping and analysis of bacterial genomes in *Nonmammalian genomic analysis A practical guide*, Birren, B. and Lai, E. (eds.) Academic Press, U.S.A, p. 165-195.
3. Römling, U., Heuer, T., Tümmeler, B. (1994) Bacterial genome analysis by pulsed field gel electrophoresis techniques. In: Chrambach, A., Dunn, M.J. and Radola, B.J. (Eds.) *Advances in Electrophoresis*, Vol. 7, VHC Verlagsgesellschaft, Weinheim, p. 355-408.
2. Holloway, B.W., Ratnaningsih, E., Krishnapillai, V., Tümmeler, B., Römling, U. (1993) A physical and genetic map of *Pseudomonas aeruginosa* PAO.

In: O'Briens, S.J. (Ed.) Genetic Maps, 6th ed., Cold Spring Harbor Laboratory Press, Cold Spring Harbor, N.Y., p. 2.93-2.97.

1. Tümmler, B., Römling, U., Ratnaningsih, E., Morgan, A.F., Krishnapillai, V., Holloway, B. (1992) A common system of nomenclature for the physical map of the chromosome of *Pseudomonas aeruginosa* PAO. In: Galli, E., Silver, S., Witholt, B. (Hrsg.) PSEUDOMONAS: Molecular Biology and Biotechnology. American Society of Microbiology, Washington, D.C., p.5-7.
