

Strategic Research Program in Epidemiology

Announcement of small grants –

for activities aiming to promote scientific excellence in epidemiology and increase scientific collaboration between different epidemiology centers and departments at Karolinska Institutet

Types of fundable activities:

1. Half- or fullday seminars or workshops with invited speaker(s)
(up to 50,000 SEK)
2. Grant writing workshops (up to 25,000 SEK)
3. Short courses in epidemiology (up to 50,000 SEK)

Instructions:

1. The activity must explain how it supports at least one of the three SFO themes:
 - I) Human interactions with micrororganisms
 - II) Molecular, genetic and clinical epidemiology
 - III) Lifespan approach to Health and Disease.
2. The application should clearly state how at least two, preferably more, separate epidemiology centers/departments are actively involved in the organization and participation of the proposed event and how collaboration within epidemiology at KI is fostered.
3. A grant application of max. one page should, in addition to the above, specify:
 - the scientific aims
 - brief background
 - planned schedule
 - budget
 - target group for the activity
4. Main applicants at post-doc, assistant professor or associate professor level will be prioritized.

Applications can be e-mailed to SFO-coordinator Maria Berner Holmström (maria.berner.holmstrom@ki.se). Decisions are taken bi-monthly.
